

## Integrated tv-screen – overview

### Application:

- Perfect for long-term presentations, customer welcome screens, entertainment in waiting areas, room signage, and many more
- Our technology allows for playback of all devices, such as Apple TV, laptop, receiver, Blu-Ray Player, and many more

### Technical data:

- The width of the element is determined by the screen size (i.e. 41" screen)
- Customers only have to provide cabling, active speakers and a playback device
- Control technology, movable wall technology, wireless and TV technology incl. HDMI-cable, remote control and audio splitter are provided by Nüsing

Perfect  
addition to the  
premium glass  
or premium  
movable wall
